

Amendments to the Claims

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims

1. (Currently Amended) A camera comprising,
~~An~~ an actuator,
a finder driving unit that drives a finder optical system, and
~~a driven unit, and~~
a driving member which rotates around the image-taking optical axis by the driving force from the actuator and transmits the driving force to the ~~driven unit~~ finder driving unit,
wherein two gears are formed integrally on the outer and inner circumferences of the driving member, of these two gears, a first gear is interconnected to the actuator and a second gear is interconnected to the ~~driven unit~~ finder driving unit, and
the two gears are formed at different positions in the direction of the image-taking optical axis in the driving member.
2. (Original) The camera according to Claim 1,
wherein the distance between the image-taking optical axis and the bottom of the second gear is equal to or shorter than the distance between the image-taking optical axis and the bottom of the first gear.
3. (Currently Amended) The camera according to Claim 1,
wherein the ~~driven unit~~ finder driving unit is positioned outside of the driving member.
4. (Canceled).
